PUBLIC COIN AUCTION

FRIDAY-SATURDAY
MARCH 18-19, 1955

A WORD ABOUT COIN AUCTION SALES

It is a simple matter to sell a collection of nice coins. Any dealer will buy such a collection outright or offer it to the public at auction. However, all collectors accumulate duplicates from time to time and it is not always easy to market these at a fair price. INCLUSION IN AN AUCTION IS THE SOLUTION. Catalogues go to all types of collectors in all parts of the World and somewhere someone is looking for the coins you want to dispose of.

The Schulman family have been NUMISMATISTS for over 75 years. Our mailing list reaches thousands of collectors in every country in the World except behind the Iron Curtain. More than 600 mail bids were received for our last sale which was not an important one. It is not unusual for us to receive over a thousand mail bids when the sale is important. Our terms are fair and reasonable and are based on what you have to sell, how they are received and their value. If you want to sell your COLLECTION or just your duplicates why not write us for our terms. The present sale contains MORE THAN TWENTY FIVE CONSIGNMENTS . . there MUST be a GOOD REASON.

SEVENTY FIFTH YEAR

1880 OF THE 1955

HOUSE OF SCHULMAN

With this sale the SCHULMAN family will have been in the coin business 75 years In 1880 my Grandfather JACQUES SCHULMAN, who had been a private collector for many years decided to engage in the coin business as a profession limiting his personal collecting to just Dutch East Indies coins which were his favorite. His first price list was mailed from Amersfoort (near Amsterdam) in 1880. He had a reputation as an expert on Oriental coins and a vast general knowledge of coins of the World.

In 1890 the entire SCHULMAN family moved to Amsterdam and opened a coin business at 448 Keizersgracht where a coin business is still being carried on by my cousin Jacques.

Grandfather had two sons, MAURITZ (my father) affectionately known to his many friends all over the globe as "MAX" and ANDRE (father of my cousin Jacques). Both sons took great interest in the coin business and spent all their spare time in the shop learning the trade. Max in 1891 at the age of 15 became a full fledged employe working usually until 11 each night (can you imagine an apprentice doing that today?) The entire Schulman family lived over the shop. Grandfather died in 1913 and the business was carried on by Max and Andre. Around 1913 my father began making yearly visits to America and continued them, except for war years until 1937. He made a host of friends and supplied many rare coins to such collectors as Brand, Wormser, Newcomer, Boyd, Raymond, Gibbs, Liverright and many others.

The business in Amsterdam was growing rapidly and from 1910 on was large and prosperous as one important collection after another was sold through auctions or private sales. The catalogues of many sales such as Meili, Da Silva, Castro, Grogan, Fernand, Davis, Newcomer, Moquette and many others are still used as check lists by many collectors. My uncle Andre concentrated on the European end of the business and attended all the important sales in Germany, France and England.

In 1936 Andre died too young but did miss the ordeal of the German occupation. After his death it was decided his son Jacques would open a coin business under his own name at The Hague and my father, Max, would continue in Amsterdam under the firm name "J. SCHULMAN".

I joined my father after finishing school in 1937 and studied the business under him until 1939 when pending events 'cast their shadow before' and established my own business in New York under the kind and able guidance of my Father's closest friend Wayte Raymond. I became an American citizen in 1945 and the business prospered. Things in Europe however were not good. Hitler occupied the Netherlands. My father was arrested by the Gestapo and never heard of again until recently when we learned he had been put to death in a concentration camp during July 1943.

From this you will see that the HOUSE OF SCHULMAN with this sale are celebrating their 75th Anniversary. We want to thank our friends in America and all over the World for their generous patronage and kind help. May we always enjoy your confidence.

HANS M. F. SCHULMAN

ORDER OF SALE

FIRST SESSION
FRIDAY AFTERNOON, MARCH 18, 1955 — 1:30 P.M.

Collection of O. K. Rumbel of Texas

It is with great pride that we present to our patrons one of the finest specialized collections offered within many years. While we sell coins, decorations and paper money of all countries and all periods we know of none as eagerly sought as the cut and/or counterstamped coins of the West Indies. Next might properly come the counterstamped and obsidional coins of the World. It would be hard to find any series more interesting than the Spanish-American coins of the Americas. This offering exceeds any sale of these three series within the past 25 years.

Lots 1 to 129 West Indies cut and/or counterstamped. Gold, Silver, Copper.
130 to 145 Uncertain and unattributed, possibly West Indies.
146 to 243 Counterstamped and obsidonal coins of many countries.

"THE LIMA HOARD"

Lots 662 to 738 consists very largely of a large hoard of coins found sometime during the year 1944 in Lima. From their appearance, color and the dates the hoard must have been buried in 1689 and most of them show no sign of ever having been in circulation. Much of this hoard was purchased by Robert Nesmith of New York and were very carefully written up and analyzed in a splendid article published by the American Numismatic Society in 1945. We recommend that serious collectors obtain a copy of "Museum Notes 1945". They are still available from the Society.

Lots 861 to 895 So-called "Dollars of U.S.A. Some Bryan & Medals.
896 to 893 Colonial Currency of the Colonies.
984 to 996 Continental Currency.

Beginning of the famous collection of New Jersey
Made by the late Dr. Jacob N. Spiro

Dr. Spiro spent a life time collecting every possible variety of the Colonial Currency, Private Issues and Broken Bank Bills of New Jersey. His collection of Jersey cents (which will be sold tomorrow) are without equal. While many of the rare early notes are far from perfect the Doctor made every effort to obtain the finest available and replaced many of his specimens over and over as better ones were offered.

Lots 997 to 1168 Colonial notes of the Colony of New Jersey. This is the finest and most complete collection known.
1169 to 1213 Early notes of New Jersey town, cities and businessmen.
1214 to 1277 Broken Bank Notes. This remarkable collection is filed in special albums by Counties. There are many rarities and most of the notes are in the finest possible condition.

THE FAMOUS COLLECTION OF NEW JERSEY COINS

MADE BY DR. JACOB N. SPIRO

Dr. Spiro became interested in the collecting of coins, paper money and documents relating to the history of New Jersey when just a boy and lost no opportunity to improve and increase his collection. In his constant effort to improve his coins be bought many duplicates which account for the fact that even in the case of extreme rarities he had more than one. **THIS IS THE FINEST AND MOST COMPLETE COLLECTION EVER OWNED BY ONE COLLECTOR.** Dr. Edward Maris, whose historical sketch "The Coins of New Jersey" is still the standard for classification of the series wrote that an Irishman by the name of Mark Newbie in 1681 brought over a large number of coins which he had purchased at bargain prices. He settled in Newton, Gloucester County and opened a Bank. Since there was a shortage of small money legislation was passed permitting the use of these coins which were known as "Patrick's Half Pence". After the Revolutionary War the Colonists were annoyed by the light weight copper coins which had been imported from England and were similar to but much lighter than the regular English coinage. To correct this nuisance and supply the needed copper coinage an act was passed in 1786 authorizing Walter Mould, Thomas Goadsby and Albion Cox to strike off coins equal to the sum of one thousand pounds. It was specified the coins were to be of pure metal and to weigh six pennyweight and six grains (126 grains). Fifteen such coppers to pass for one shilling. The State was to receive a tenth part of the amount coined. Mould established himself at Morristown while Goadsby and Cox located at Elizabethtown. These mints were operated until 1788 when the Federal Constitution was adopted. This collection has been classified by Maris numbers.

NOTE: The following lots of beautiful coins are from the private collection of the famous dealer, collector and publisher and in most cases are the identical coins he used in illustrating his "Coin of the World Nineteenth Century", "The Silver Dollars of North and South America" and other publications. In some cases the coins here offered when in ordinary condition are fairly common but when uncirculated gems are very rare.

WHY NOT ASK US?

OUR AUCTIONS ARE A SMALL PART OF OUR NUMISMATIC BUSINESS

We have over 50,000 foreign and ancient coins in stock at all times. While we do issue price lists from time to time it is almost impossible to make complete lists as our stock is constantly changing and by the time we can compile a list, have it printed and mailed the VERY COINS YOU WANT MAY HAVE BEEN SOLD TO SOMEONE ELSE.

WHY NOT . . . . . ?

Send us a list of what coins or series you are interested in and let us see what we have in your line?

Naturally, we do not have everything but you would be amazed to see what passes through our stock in a years time. This is particularly true right now when we will soon have our tremendous purchases made abroad.
